The Structural Steel Inspector's Workbook, 2014 edition, is written by Bob Shaw of the SSTC and published jointly by the SSTC and the International Code Council. This workbook can be used as a training tool or study guide for structural steel building inspectors, especially for those preparing to take the S1 and/or S2 Special Inspector certification examinations. It may also be used as test material to evaluate the knowledge and skills of structural steel inspectors. The Workbook contains key points for each section, multiple choice questions, and an answer key at the back with the specific code provision citation. Approximately 400 questions are prepared for study and evaluation.

The Workbook contains 21 chapters:

2. Model Program for Special Inspection
3. Special Inspection Manual
4. Terms and Definitions
5. Structural Steel Materials
6. Steel Fabrication
7. Steel Erection
8. High Strength Bolting Materials
9. Bolt Installation and Inspection
10. Welding Processes and Filler Metals
11. Welded Connections
12. Welding Prequalification and Qualification
13. Welded Fabrication
14. Welding Inspection
15. Shear Connector Welding
16. Sheet Steel Welding
17. Reinforcing Steel Welding
18. Welding Symbols
19. Open Web Steel Joists and Joist Girders
20. Steel Floor and Roof Decks
21. Seismic Connections
The Workbook draws questions from the following references:

**International Code Council**
- Model Program for Special Inspection (2012)
- Special Inspection Manual (2012)

**American Institute of Steel Construction**
- Specification for Structural Steel Buildings (AISC 360, 2010)
- Code of Standard Practice (AISC 303, 2010)
- Seismic Provisions for Structural Steel Buildings (AISC 341, 2010)

**Research Council on Structural Connections**

**American Welding Society**
- Structural Welding Code - Steel (D1.1:2010, also applicable to 2008)
- Structural Welding Code - Reinforcing Steel (D1.4:2011, also applicable to 2005)
- Structural Welding Code - Sheet Steel (D1.3:2008)
- Structural Welding Code – Seismic Supplement (D1.8:2009)
- Standard Symbols for Welding, Brazing and Nondestructive Examination (A2.4:2012, also applicable to 2007)

**Steel Deck Institute**
- Standard for Quality Control and Quality Assurance for Installation of Steel Deck (QA/QC-2011)
- Standard for Steel Roof Deck (RD-2010)
- Standard for Composite Steel Floor Deck – Slabs (C-2011)
- Standard for Non-Composite Steel Floor Deck (NC-2010)

Within the USA and Canada, Standard Shipping of most products is done using United States Postal Service (USPS), most commonly using Priority Mail. Small orders may be shipped First Class Mail. Our alternative method of shipping is FedEx Ground. We do not use United Parcel Service (UPS).

Orders are typically shipped within five business days after receipt of order. However, longer shipping times may occur during holiday periods, office vacation shutdown, and extended international business activities. Such closed dates are posted and updated in this section, as follows:

- July 25 – August 5, 2016
- Express shipping can be provided only when arranged via email to info@steelstructures.com and agreed to by SSTC, or when arranged by telephone to (734) 878-9560 and agreed to by SSTC. Additional charges for express shipping will be quoted in advance upon request.

For most shipments, when a PO Box is to be used for your receipt of your mail delivery, please supply your PO Box address and zip code / postal code. For shipments known to be shipped by FedEx, please supply a physical address, including the zip code / postal code for the physical address.

For information on delivery time outside the USA and Canada, to request alternate or express shipping, to get a shipping price quote, or for questions, contact SSTC at info@steelstructures.com.

International Delivery (including Canada) may include additional fees such as duties and/or taxes imposed by your local Customs Office. These additional fees are not covered by SSTC's shipping and handling charge and you are responsible for these costs; as well as verifying that the product can lawfully be imported into the destination country. If you have any questions regarding these fees, please contact your local Customs Office, as they can provide you with all the necessary information regarding customs fees.

If you have any questions regarding these policies, please email SSTC at info@steelstructures.com or call (734) 878-9560.

## Returns & Exchanges Policy

Products may be returned in new, resalable condition within 30 days. Claims for shortages or damage must be made within 5 days of receipt of merchandise, and must be requested by email to info@steelstructures.com.

All returns must include a printed copy of the email from SSTC authorizing the return. Unauthorized returns will be delayed in processing and may not be accepted for credit and/or may get returned to the customer. Returned merchandise must be shipped prepaid to SSTC. Shipping and handling charges for returning items are borne by the buyer. It is strongly recommended that returned merchandise be shipped using a trackable shipping service.

All returns are subject to a restocking fee of 20 percent of the original selling price. Please note that we do not refund SSTC's shipping charges. No refund will be issued on overpayments less than $5.00.

Most refunds are issued based on the payment method used at the time of purchase.
